

**Collaborative Call for Young Scientists Fellowships with Georgia 2005
Awarded Fellowship Grants**

ID	Type	Name of Grantee	Project Title	Home Institution in EECA	Host Institution in INTAS Country
4377	PostDoc	Ivanova, Anna Teymuraz	Mechanisms driving the encapsidation of viral DNA during the bacterial infectious cycle: a pluri-disciplinary approach	Tbilisi State University, Tbilisi, Georgia	Université Paris-Sud, Faculté des Sciences, Orsay, France
4484	PostDoc	Jaiani, Ekaterina George	The study of bacteriophages to be used for pathogen removal from water reservoirs	G. Eliava Institute of Bacteriophage, Microbiology and Virology, Tbilisi, Georgia	UFZ Centre for Environmental Research Leipzig-Halle, Department Bioremediation, Germany
4484	PostDoc	Jaiani, Ekaterina George	The study of bacteriophages to be used for pathogen removal from water reservoirs	G. Eliava Institute of Bacteriophage, Microbiology and Virology, Tbilisi, Georgia	University of Wales, Aberystwyth (UWA), Institute of Biological Sciences, United Kingdom
4526	PostDoc	Chikoidze, Ekaterine	Influence of doping on the the magnetic and semiconducting properties of the Mn:ZnO DMS system	Tbilisi State University, Tbilisi, Georgia	Centre National de la Recherche Scientifique (CNRS), LPSC, Meudon, France
4608	PhD	Mskhiladze, Lasha Vasil	Pharmacognostic study of Allium Leucanthum C. Koch	Tbilisi State Medical University, Tbilisi, Georgia	Université de la Méditerranée (Aix-Marseille II), Faculty of Pharmacy, France
4721	PostDoc	Ghlonti, Thea Murtaz	Bacteriophages as a source of capsule depolymerase – a new approach to the treatment of Pseudomonas aeruginosa infections in cystic fibrosis.	G. Eliava Institute of Bacteriophage, Microbiology and Virology (IBMV), Tbilisi, Georgia	University of London, School of Pharmacy, United Kingdom
4823	PostDoc	Maziashvili, Mikheil Albert	Phenomenological consequences of extra-dimensional models for Particle Physics, Cosmology and Astrophysics	Andronikashvili Institute of Physics, Tbilisi, Georgia	Centre National de la Recherche Scientifique (CNRS), Astroparticules et Cosmologie (UMR 7164), Paris, France Université Libre de Bruxelles, Service de Physique Théorique, Belgium
5138	PhD	Jimsheladze, Tamar Jemali	Study of geological deformational processes in the Caucasus seismically active region	Institute of Geophysics, Tbilisi, Georgia	Institute of Nuclear Research and Nuclear Energy Geophysics, Theoretical Department, Sofia, Bulgaria
5210	PhD	Mujiri, Sophio Michael	Development of a technology transfer system for the commercialisation of applied scientific research in post-communistic countries	Georgian Technical University, Tbilisi, Georgia	Ferrara University, Consorzio Ferrara Ricerche, Italy
5210	PhD	Mujiri, Sophio Michael	Development of a technology transfer system for the commercialisation of applied scientific research in post-communistic countries	Georgian Technical University, Tbilisi, Georgia	Fraunhofer Gesellschaft, Fraunhofer Patent Center, Munich, Germany
5449	PhD	Macharadze, Dmitry Murman	Optimization of the technological parameters isothermal of diffusion welding by pressure for the preparation of high-quality stratified composites of steel-aluminum system by the method of electro-contact heating.	Georgian Technical University, Tbilisi, Georgia	Technische Universität Braunschweig, Department of Mechanical Engineering, Germany
