Foreword

Statement by the former INTAS Executive Secretary

It was an honour for me to serve as the Executive Secretary of the Association from 1 April 2004 until its statutory end, 31 December 2006.

The years 2005-2006 covered the second half of the European Union's Sixth Framework Programme for Research and Technology Development. During this period, I have been endeavouring to steer INTAS towards what it was widely recognized to be, namely an invaluable tool for promoting East-West scientific co-operation, whilst contributing to the reflection about "post 2006", once it became clear that INTAS could not continue its activities under the Seventh Framework Programme.

On the one hand, INTAS' activities during this period provided continuity with initiatives started previously, guided by the paradigm of *identifying and rewarding excellence*. Nevertheless, the implementation of a more differentiated scientific policy, both in terms of thematic priorities and in terms of regional needs & capacities, recommended by INTAS' Council of Scientists and approved by INTAS' General Assembly, was made possible owing to INTAS' tailor-made, targeted programmes and instruments, as well as its flexible co-funding arrangements.

An important tool for developing this renewed policy was the organisation by INTAS of a number of *scientific policy events* addressing thematic or regional issues. Through bringing together scientists and scientific policy-makers from the INTAS members, the Eastern European and Central Asian (EECA) countries, these events allowed identifying priority research areas, promising fields for East-West co-operation and giving more visibility and effectiveness to INTAS' calls for project proposals.

Of the *eleven calls for project proposals* launched over the period 2005-2006, the Open Call was implemented for the first time in a two-stage approach, as were two thematically focused calls on "genomics and proteomics" and "hydrogen technology and biomass for energy production". A third

thematic call, covering topics of social and human sciences, followed the usual one-stage procedure because of time constraints. Remarkably, *all of the other seven calls were launched in collaboration* with either western institutions: the European Organisation for Nuclear Research (CERN), the European Space Agency (ESA), Centre National d'Etudes Spatiales (CNES - France), Gesellschaft für Schwerionenforschung (GSI - Darmstadt, Germany), or institutions from the EECA countries: the Academy of Sciences of Moldova, the National Space Agency of Ukraine, the Siberian Branch of the Russian Academy of Sciences and, for the first time, the three South-Caucasian republics of Armenia, Azerbaijan and Georgia, associated with INTAS in a regional call.

A new *innovation partnering instrument* was launched to support projects with promising industrial applications. Using this instrument, an open call for innovation grants was launched in 2005, followed in 2006 by a collaborative call with the Russian Foundation for Assistance to Small and Innovative Enterprises (FASIE).

Besides the continuous success of the open calls for *young scientists fellowships*, confirmed in 2005 and 2006, the joint funding scheme for fellowships proved sufficiently attractive to be implemented with *11 collaborative calls* associating CERN, GSI, Deutsches Elektronen-Synchrotron (DESY), and also Azerbaijani, Georgian, Moldavian, Kazakh, Russian, Ukrainian and Uzbek partners.

Finally, INTAS continued in 2005 successful initiatives started previously, such as summer schools and conference support.

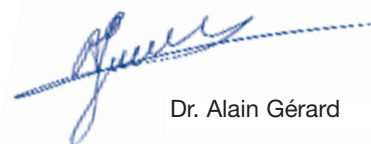

INTAS' active dialogue with the research communities and science policy-makers in the east and west was further strengthened through the *INTAS Information Network programme (ININ)*, involving official contact persons in the EECA governments and the EECA national, regional and thematic contact points for the Sixth Framework Programme. The general purpose of the ININ programme was to raise awareness, and provide information, advice and training opportunities throughout the EECA countries

about the European Research Area (ERA) and the European Union Framework Programme. A number of **brokerage events** were organised in the framework of ININ, some in collaboration with the European Commission.

Whilst approving the management plan for the winding-up of INTAS activities, the General Assembly acknowledged that the experience, expertise, instruments and knowledge accumulated during the course of INTAS should be preserved and transferred as much as possible to benefit cooperation with Russia, Ukraine and other EECA countries. Indeed, the Seventh Framework Programme acknowledges that future activities providing continuity of INTAS

should take into account the experience gained through INTAS and build on its work.

The General Assembly appointed me as the liquidator of INTAS and also entrusted me to develop a policy to organise the transfer of these assets to the INTAS' members in an efficient way. Together with winding-up INTAS' activities smoothly and meeting all obligations taken by INTAS, this is a new challenge, which I am glad to take up. Based on the continued support from all the Association's members and the efforts of INTAS' staff, which I benefited from in the capacity of Executive Secretary, I am confident that this challenge can be met.

Dr. Alain Gérard

Aspects of INTAS

The Statutes

The INTAS Statutes, revised in conformity with the 2003 amendments of Belgian Law on non-profit international associations (aisbl - association internationale sans but lucratif), were published in the Moniteur Belge on 27 September 2006.

The General Assembly

Ms. Monnik Desmeth - GA Chair -
Federal Science Policy Office
(BELSPO)

The General Assembly met biannually during 2005 - 2006 and welcomed eight new members up to the end of 2006, namely France, Hungary, Ireland, The Netherlands, Slovenia, Spain, Switzerland and the UK.

Mr. Zoran Stančić (Deputy Director General - DG Research) also confirmed his nomination as the official representative of the European Community for this period.

The General Assembly extended its gratitude to two members who announced their retirement in the course of 2005: Mr. Pim Fenger, former Chair and representative of The

Netherlands, and Mr. Marek Kepka, Vice Chair and representative of Poland.

INTAS' Dissolution

The European Commission recalled at the Spring 2006 meeting the reasons that made impossible the prolongation of INTAS beyond its statutory end of 31 December 2006. At its 37th meeting on 22 September 2006, the General Assembly agreed unanimously that INTAS would be in liquidation by law, as of 1 January 2007. The General Assembly also agreed that ongoing projects and activities entered into before 31 March 2007 would be honoured in accordance with INTAS' standard procedures. INTAS Executive Secretary, Dr. Alain Gérard, was appointed as liquidator with an approved mandate to be reported on to the General Assembly.

The General Assembly nevertheless agreed to use funds released from disengagements or savings to support some follow-up activities in 2007, including continuation of the ININ (INTAS Information Network) Programme until September 2007, as well as the organisation of workshops related to calls launched by INTAS in 2006, 2005 or earlier. Finally, the General Assembly also asked the Secretariat to prepare an inventory of INTAS' "intangible assets", meaning tools, databases, competences and skills, and to develop a policy for managing their transfer to INTAS' members.

Aspects of INTAS

The Council of Scientists

The Council of Scientists met twice during 2005, and welcomed five new members from France, Italy, Poland, Romania, and Slovakia.

Prof. Julian Ross - CS Chair - University of Limerick, Ireland

During the course of the year, the Council of Scientists approved the appointment of Prof. V. Rubakov and Prof. M. Fendekova to serve as Vice-Chairs until the end of 2006. The Chairmanship of Prof. Julian Ross was also extended until the end of 2006.

In 2005, permanent thematic panels were established to steer and review INTAS programmes. In particular, members of the Council of Scientists had an input to the steering committees of INTAS-initiated scientific policy workshops.

Over 2005-2006, the Council of Scientists made recommendations to the General Assembly on 26 calls launched by INTAS, 13 in 2005 and 13 in 2006.

The Secretariat

The Association saw a considerable turnover of staff during 2005-2006, starting with the departure of its Deputy Secretary, Richard Burger, who left for Moscow at the end of a five-year secondment to INTAS by the European Commission, to take up the post of Science & Technology (S&T) Counsellor at the European Commission Delegation to Russia.

Following Richard Burger's departure and the departure of Mrs. Joëlle Lepot and Ms. Aoife Leydon also in July, the external relations department was reorganised and the Secretariat welcomed Ms. Lydia Chalmers as External Relations Manager and Secretary to the General Assembly, Dr. Dieter Nietzold as Adviser for Relations with the NIS and Ms. Karine Lamaille as the new Public Relations Officer.

Ms. Tatiana Runge was recruited by INTAS to take up the post of ININ Programme Manager after the departure Ms. Catherine Delfar-Verschoore. Ms. Sonia Mileu-Churra, was replaced by Mr. Sebastian Emig, who was recruited as Administrative Officer.

Five National Experts left INTAS in 2005 and 2006.

- Dr. Gulnara Roll (Social and Human Sciences) returned to Estonia in July 2005 and her portfolio was taken over by Assoc. Prof. Raimonda Balniene, seconded by Vilnius College, Lithuania.
- Dr. Patrizia Asirelli, (Mathematics, Telecommunications and Information Technology) was replaced by Dr. Vladimir Janis (Mathematics), seconded by the Matej Bel University of Banska Bystrica, Slovakia and Dr. Yuri Melnikov (Telecommunications and IT), seconded by the University of Thessaloniki, Greece, who took part of the Physical Sciences' portfolio.
- Dr. Paul Beckers (Life Sciences), seconded by NWO (Netherlands Organisation for Scientific Research), left INTAS in December 2005 and was replaced early 2006 by Dr. Sergei Gutnikov, seconded by Oxford University.
- In September 2006, Mr. Manfred Spiesberger, who was seconded by Österreich-Kooperation (Austria), left INTAS and the management of the Innovation Grant programme was transferred to Mr. Sebastian Emig.
- Finally, Mrs. Hélène Bourlakoff, Scientific Officer for Space, Aeronautics and Engineering, who was seconded by the French National Space Centre (CNES), left INTAS in February 2006. Mrs. Siana Taraktchieva-Koumalagov took over Mrs. Bourlakoff's duties in the new capacity of Project Officer.

Stepping stones to success

Mrs. Siana Taraktchieva-Koumalagov initially joined INTAS as a legal assistant in 2000, and later became the administrative assistant for two scientific fields. During this time, she was actively encouraged by INTAS to pursue her law studies in parallel and, as a result, obtained a Bachelors degree in 2002. Spurred on by this achievement, Siana set her sights on attaining a Masters degree in Law, and achieved her goal three years later, graduating in 2005. Siana was later promoted to the position of Project Officer for Space, Aeronautics and Engineering and successfully managed the INTAS Collaborative Call with CNES and NSAU on Space Technologies.

Secondment of Experts by Member States over 2005-2006

Country	2005		2006

Total		142		127

* Through secondment of a Belgian citizen
 ** Part time in 2006

The figures indicate the number of people seconded by national authorities to the Association and the length of their stay at the INTAS Secretariat.

INTAS: adaptation of tools & developments

A cooperation agreement was signed with the General Secretariat for Research and Technology of the Greek Ministry of Development (GSRT), whereby INTAS was entrusted with the administration of the **Pilot Joint Call** launched by the SEE ERA-NET¹ on 30 November 2006, with deadline 31 March 2007, including the organisation of the peer-review of submitted applications.

INTAS Web-based Call Management System was successfully adapted in November 2006 to the specific requirements of this pilot call.

¹ See <http://www.see-era.net/pjc>

Activities & Projects 2005-2006, Results & Budget

All together, **24.2 M€** were approved by the General Assembly over 2005-2006 for the funding of 191 projects, 23 innovation grants and 381 Young Scientists Fellowships. INTAS' funding was topped-up by **4.1 M€** contributions of co-funding. ■

Annex 4: List of INTAS Secretariat in 2005-2006

Alain Gérard Nadia Ongena ⁴	Executive Secretary Personal Assistant
Richard Burger ²	Deputy Executive Secretary
Lydia Chalmers ¹	External Relations Manager. Secretary to the INTAS General Assembly
Dieter Nietzold ¹⁻⁴	Advisor for Relations with the NIS
Luc Hiergens Dominique Mayart	Finance Manager Assistant
Matthias Parske	Legal Adviser
Kim Schotanus Nathalie Sergeant Lambros Theologitis	Information Systems Manager Logistics Officer Network Officer
Manfred Spiesberger ⁴ Teresa Coen	Innovation Manager Assistant
Martine Bonin Teresa Coen Piret Noukas ¹	Programme Manager. Secretary to the INTAS Council of Scientists Assistant Administrative Officer
Catherine Delfar-Verschoore ²	ININ Project Manager + International Relations
Tatiana Runge ¹	ININ Project Manager
Joëlle Lepot ² Aoife Leydon ²	Public Relations & Web Content Officer Assistant
Karine Lamaille ¹	Public Relations Officer

Physical Sciences (particle, nuclear, astrophysics, lasers & plasmas)

Helmut Bokemeyer	Scientific Officer
Sandrine Tomme	Assistant

Information Technology; Physical Sciences (condensed matter)

Yuri Melnikov	Scientific Officer
Siana Taraktchieva-Koumalagov ⁵	Administrative Officer

Mathematics

Patrizia Asirelli ²	Scientific Officer
Vladimir Janis ¹	Scientific Officer
Siana Taraktchieva-Koumalagov	Administrative Officer

Chemistry

Alberto Procopio	Scientific Officer
Sonia Mileu-Churra ²	Assistant
Sebastian Emig ¹	Administrative Officer

Life Sciences

Paul Beckers ²	Scientific Officer
Sergei Gutnikov ³	Scientific Officer
Carole Schubert	Assistant

Earth Sciences & Environment

Pavel Liščák	Scientific Officer
Carole Schubert	Assistant

Space, Aeronautics & Engineering

Hélène Bourlakoff ⁴	Scientific Officer
Siana Taraktchieva-Koumalagov	Administrative Officer

Economics, Social & Human Sciences

Gulnara Roll ²	Scientific Officer
Raimonda Balniene ¹	Scientific Officer
Sebastian Emig ¹	Administrative Officer

¹ Staff who joined the Secretariat in 2005

² Staff who left the Secretariat in 2005

³ Staff who joined the Secretariat in 2006

⁴ Staff who left the Secretariat in 2006

⁵ Project Officer in 2006

Eastern European and Central Asian (EECA) countries

Armenia - Azerbaijan - Belarus - Georgia - Kazakhstan - Kyrgyzstan -
Moldova - Russia - Tajikistan - Turkmenistan - Ukraine - Uzbekistan
